Corruption -

Danger of having Ministers on Board of Directors of new firms - they themselves open to conflict of interests - payment to use their open influence w Kg. + c / public - ex of Ge 'Bank of Swaziland'.

Pressure put by Ministers to have a royal on board of directors in some cases (called Politi) + describes reaction of old N. expert to this as 'Mickey' - R1000 p yr. (Age) cannot argue altog. - e ? if folk to elt. of Bank only on basis of the choice)

Many ministers too involved in running private businesses - partly result of absence of security.

Refugees come from Natal 5th, given Brit. citizenship on refugee in GB automatically, legally convicted to do - had also Konkel, but has not yet received Konkel papers. Immigration. G.S. thinks that for 1 investors who must bring in Capitals, it is necess. to offer inducements such as tax holidays for 5 yrs, + also temporary resident certificates for 5 - 6 if necess. 7 yrs so that they don't have to go thro' hassle of applying every 2 yrs. (I put fwd the viewpoint - 'devices of the right - if no good reason to send him off then'. If immigrants were better [carefully] briefed / processed it would be quicker than it is at present - but 'devices' are never easy + quick!

Hendrik

Cape

I Visited Hen who had been ill; three of his 'Bros', Mathagangeng of Lomitsi & Pinda only child of the late de Abbantè, were visiting him. His wives - La Mahoya & La Tsana, tog. w. Gladwin's wife from Station Dept. had gone to Church to sleep! Sentry Hen in his Vehicant wh character. He explained that he was trying to combine 2 things - polyg. wh progress. He did not want his wives to feel envious of (as wh monopolised his husband, & what seem from he did not want them to suffer from a feeling of neglect like some of I 'bonage' sometimes did. It was 'an experiment' to bring educated & untu polyg. & how these things - 'boys & boys' - but he had to keep I control.

We discussed I? of conflict of customs, Pedi & Bleyer (in best the) the came in to observe smoky w Hendrik asked if that was not I point everywhere - Hen explained that diff. time when w. were boys 2d up - on mission stat; in town, in a boarding school, at home etc. I diversity in fact seems quite in Sotho than in any other Native tribe I have (another) to the attempt to all

whereupon the late Kgosi of Bobirwana (Kwelagobe) expressed anger, & rebuked him - a President, for calling a King 'Father', & went on to say that we don't want Kings. 'King' to those who don't know means 'tyrant' Kwelagobe is going to open (Mang) shop - interpreter, Mathambo (Bob & M) 'Sorry I Bob thro'

Mentioned in 1 meeting to Kyi that it appears that Mokelem had already done so! - + 1 Kyi reaction was - he told them like I to see it. Why hadn't it been shown to him? Howeve I point say they want to keep it, for 'teaching purposes', + Mok reluctantly agrees, v fundamly that at some late stage his book will be returned

It was obviously not directed at 1 Kyi. he[Mokgeb] w his self who 1 own who did have been killed.

When I said I didn't think there was much for Iry to fear, Mok. disagreed - it is 1 word 'Kiny' that primary people fear. They think of a Kiny living in luxury, with huge palaces - they will never think of a Ky walking barefoot, dressed in rags, Mok. says that at a meeting of Kyi leaders, Kaunda appeared to talk on his 'F'-

Story of the Book

Previous lots of books, some he flips thro, puts aside some for further reading, some he throws away. (Parcels opened by me see) This book black SSR and cover - a big thick book. He opened & saw a square piece cut out & 2 things like torch batteries inside. Thought he's a new way of writing. & put it on his table to read later. Dikade came in, saw book, opened it & said jokily. 'that's his! a bomb?' & asked to borrow it. Mels agreed. I never thing he knew [illegible] was when he was asked about it by police.

Dec to him DI then told him that he had kept book in his desk. At that time the office of D Pris was held by Ganeshe & Wyemale & DI was Hamish of Treacy & Enfield. With change over DI was applied to Edmonds.

& book was in the drawer of his office, at time became Pris. How it got on to Pris's desk is still a mystery. suggestion is that one of office assistants who had been kept by Pris, who applied a previous letter,

A. Thorpe felt it necessary to bring in new gp there -
+ he was not person to mention Denning. A.E. v.
contrast of 'Eclipse' that doesn't want to hear criticism,
& I think, + more unbiased in his own position
w/ community.
E.B. he used as a sounding board, never saw I by except
formally - this as Private Sec of I.P.M. he used to
come home to present ideas + discussions. Considers two I by
alone w Kupp 'I shd' together.

Barbara Klaja's version

He was a friend of Dr Blake, + her hus. Layton Blake (Records). On April 9th he was in Scarb (Sunday) + when he came back that night he was told that Dr B had phoned about 5 times. Showed her. He decided it was too late to do anything that day when he phoned Polly day she said he'd come in that night + he answered she was in their country room —

One day he came here + she showed him a letter from Foreign Dept. ordering L.P. out of city deported (Pol) by 31st March. V upset - but could do. Then that L.P. was here! He said why + you shd have told police. Didn't you know that? police came round + ? And what they were talking, L.P. looked outside + said - I'm off from here. L.P. Nathan was friends, that Nathan had also had Nick., she was mentioned + Hartley treat, desperate, to give himself up to Nazi police.

+ Why if Nat was come to 'kill' Kg' shd he have stayed some while in S.A.? why shd he have reported himself to Foreign police?

Dislike both clothg of girls & boys at G. comprehensive - hats! Girls inside rooms were hats - boys all bareheaded!

? of why some girls esteemed teachers, not known - due to some, it is difficult to get to know - big classes. RE is no longer part of homesta equipment, & religion valid in life.

Forbes wanted to develop Extension A, 5 miles from Nyonane Park which he has - did up + sold - mainly to pay Sw. in Italy. This other land is 2½ miles from Emaswazini + 2½ miles from top new house on road to Lusushwana - So Sw. did not want to develop. [illegible] This old has been avoided by going round it - but why build there? Also area of swamps - so Natal Trust Commission will declare it area a 'protected monument' - + all this will be regd is 'compensation' to Forbes. G. '3 factors had made for Japan's successful + rapid industrialisation' enumerated by German I -'

① Devaluation of yen - goods sold at much competitive prices.
② Social mobility - new opportunities + individuals
③ Tightening of belt - hard work + little pay.

Gilbert took them up on this - asked if he was a model he felt should be followed by Singha.

G I would not already I have had been twice devalued, + considered it seems to industrialise + has rapid mobility. Despite of 'axes of industries - not only Hokkaido, but opening up Hokuriku - deeper depth of roads + power for electricity has not got 1st industrial + H.I (would it seems to make no acquaintance)

Sakurada agreed that Jap had industrialised quickly.

Nat wondered if the people were as happy as Ishi.

G. I said how it offended him to see Japanese carrying heavy loads - (but he was obviously dismissing it as the 'social fabric')

G. Prof ethical + subjective interpretation

2 Communist Encaada - had received a loan of Rb. 000 for dvlpt of enterprises.
Formerly was part of S's ministry, now under Hfjana Sebiti - a S. Afld H. but now he cd. cld not be responsible - Hf. gave the Com. Ea. an indep. under Hf (Silkokoagle in charge)

Tourism - Ed L. emphasised the tourism was a 'service' - exporting happy image of Swzld. I ~~of~~ racism brought by SA. tourists stressed by Hlafaf. - 'atmosphere of Rep at Mbabane more 'spa'
Ed L. wanted more inducements offered to tourists.

stated I need for getting in all foreign capital.
(He had also told me that he felt I had spoken

Gibbs raised I danger of having a city controlled
by foreigners - not only a psychological, but
practical direct to ends.

Sw policy - if 2 firms, 1 SA & 1 non-SA, competed
for establishment, preference should go to non-SA.
(Tim Zwicker is one who negotiates w SA)

Simon Relationship betw N I D P & Sedco - not me if complete.
Sedco was I insurance for N. I D. P - guarantee of
stability by dirtying own Sw enterprises N. I D P foreign
money - mines

for survival - to fight or to behave diplomatically.
To judge the Chinese reaction would be fatal -
the Tibetan & Korean examples -
resistance finally died against fighting
& diplomacy was adopted - & thereby 'concessions'
made consistent in the light, - how else
to keep your people subjugated, frightened, & sick.
Friendship was regarded as weakness.

This Khamba Dzong was also a lesson for
security - & the impression that I should learn &
did get security, entering his own case. Here
we do not say 'this is my house', but this
is 'my father's house'. & he was so flustered
& bothered by his problem, a Hydra-problem, & if
he was pushed out of Lhasa by the chinese
city, he'd just come home, & then be expected to
be able to support his family, he'd have lots of milk.

Land Settlement Scheme was a failure - drawn up by Thornton Elder, + Brian Warwick. 1944.
Made no provision for group non-land interests; emphasis on retaining a totally agric. society, but also classed individ. of those granted certificates.
(?) A group of 3, Sukeli (also Lukali), Chief Fiji ? + Stanley Nxumalo (son of Ben, interested in agric.) went to look at a delpt of the proposed type in Cape; Fiji was adamant that it did not work for Sw. - insisted that "This is possession."
Moreover a lot of money wasted by those in charge - 1* double story houses in Mbabane seem to have been built w money of Land Settlement Scheme.
Sukeli says B Warwick was a man, admires him for all good that he did, but attributes change to influence of Sir John Maud who wanted Swazi to be 'a show piece', but did not recognise Sw. culture. Change in B. Mar came in after 1960 - when he went to England

Land Spec Bill – part of necessity was – of speculation by
those who bot large no. of shops in Ellesmere Millers
&c. + about 90% of Hang – w. non-holders as core

The Trouble – 1 BA is that it gives power to Boards – & Officers
way to corruption by misuse of 1 Board from impartial legal regulations +
criteria. Largely depends on 1 membership Hattersley
Natural Resources Board, in Yorkshire, has stopped much
open development

The trouble w 1 Bill is 1 uncertainty of tenure – + the effect
it will have – already has, on genuine investors. Eg
1 of Park neighbours who had intended putting up a block of flats –
+ badly needed – who have now decided not to
2 L. pointed out that proper taxation of such properties would have
1 desired effect of increasing revenue for development –
Govt. likely would not have cost 1 goal angle.

No guiding econ philosophy behind econ. change 'Modernisation' is
not a phil. – it is a vague concept, unrelated to means
or fixed goals.

Land Spec Bill did have been handled some cases – other major
changes eg ~~Transport~~ govt ~~taking~~ 50% of shares in Sugar
Mills, heavy Nat. K. in 50% (restructuring here as elsewhere)

Local govt
Tinkundla (28 throughout city) not effective - no 'phones + difficult to get messages (administrative centre)
But only 4 D.C's (+ 3 sub-districts), + 28 Districts modelled on Brit. lines.

Change in constitution likely - effort to change it made last recent sessions - put before plt, dissolved on 15th March by 7 Kg [illegible] Ministers changes - increase in no of (members) reserved to 6 Kg to Assembly, from 6 to 10, + also increase in ministers
" " Senate. Will this be a rep. of opposition + ministers 'do-gooders'

now 'who is acceptable' - a v. restrictive approach
Effects over things as ~~as~~ allocation of scholarships, choice of ~~head~~ representations for public occasions, posts of prestige. (e.g. Sir Sang asked not to appt an Mbiba as one of his instructors - Refused -

I am fairly sure that S M did not intend to refuse to pay tax & I think he meant him there if was expected that he did not to object to return to Mp. but this is to what this case on 'process of law fills

Effort at Autobiography of schooldays - 1970 (1)

Musa Nhleko.

This is your autobiography - that is, your own history. It should include who your parents are, what they do, where you were born, who your brothers & sisters are & anything that interests you about your family. It should then go on to your memories of your childhood - any events of special interest, & then your schooldays. I would like you to write down in

A. Into 4 regions - Lydenburg, Middelburg, Carolina Ermelo.

? But that is Lowveld way. How about Sw - 1

A. I don't know, but I think by where I typ KS is located + where dominant clans is situated.

And also by rivers, mountains - rivers is too vague

? ~~When~~ What about NKangela

A. Yes I typ would. When some talks of siN. I think of ITL. But when I talk of Shlangu, I think of Lowveld in Swazi.

Idiom. ungeke ufake shlangeni - I would is always finished on - shlangu is not as well defined as geog. say I people of Bek NKosi environ Hang. is described by others as big shlangu, but they themselves say shlangeni (Shlangu is beyond)

Notebook #51A
(Author's Numbering: X)
1967-1968

NOTES:

This collection of Professor Hilda Kuper's field notes was selected for filming by the author. The notebooks have been arranged in chronological order where possible. Most of the notebooks have been numbered by the author; they represent several series and have varied numberings. For ease of identification in the use of this microfilm, a single numerical sequence has been applied to the collection of notebooks (Film Sequence Numbering). Unless specified, all references to notebook numbers refer to Film Sequence Numbering.

Several notebooks include indexes. Some also have separate indexes on cards provided by the author. Both indexes have been filmed, the card index preceding the text of the corresponding notebook.

There are some index cards for which there are no corresponding notebooks. These cards have been filmed with an indication that no notebook will follow.

There is also a general subject index that covers a group of selected notebooks dated 1931 thru 1941. Some notebooks in the time period were omitted from the subject index. Entries show author's numbering for the notebooks. A table converting the author's notebook numbers to Film Sequence Numbering precedes the subject index.

Some of the notebooks have text beginning at both the front and rear covers and working inwards towards the center. Text beginning at the front cover is designated the A side; text written in the other direction is called the B side. Whenever A and B texts intersect, the relevant pages are filmed in their appropriate positions in each sequence.

Blank leaves between the texts of the A and B sides of notebooks are treated as belonging to side A.

Pagination within notebooks is inconsistent. In some cases, it is unclear whether a leaf is missing or whether a number has been omitted from the pagination. Some notebooks are not paginated.

Many notebooks contain discolored, stained or torn leaves. There are faint illegible traces of writing on the covers of some notebooks. The text of these covers has been noted on a target where legible. Part of the text is in blue, black or red ink, while part is in pencil. Some pages contain text in both ink and pencil. The filmers have tried to preserve the legibility of the notebooks as best possible.
